Group Tours
2027/2028

WELCOME,

Welcome to **STICK & STONE** and our **MeTour program!**

What makes a hiking trip unforgettable? Nature? The people we meet? The physical challenge? Perhaps pushing our own limits? Whatever motivates you, we take care of all the organisation that comes with a hiking trip.

Group tours can be especially complicated. As a solo hiker, you might still find a bed in a small mountain hut, but for groups of four, six or even ten, it gets much harder.

Our MeTour program is for groups of four or more who want to go hiking together. We handle the planning, logistics and special experiences on the ground. Whether you know where you want to go or just have a vague idea, tell us what you have in mind and we'll take care of the rest.

- **Your benefits:** A tailor-made trip, no logistical stress, better rates for groups.
- **Our benefits:** Larger groups from the outset and better planning thanks to early booking commitments.

Every trip in this catalogue is tailored to your group, including the services and price.

Nothing here quite right? Visit our website and use the MeTour form to send us an enquiry. We'll create a personalised proposal for your trip, free of charge and without obligation.
